Detailed Office Action

Status of the Claims

Acknowledgement is hereby made of receipt and entry of the communication filed 13 January, 2006. Claims 1, 6-13, 24, 42, and 43 are pending in the instant application.

Unity of Invention: Multiple Inventions

This application was filed under 35 U.S.C. § 371 and is subject to unity of invention practice pursuant to 35 U.S.C. § 121 and 372. The regulations governing the claiming of different inventions in one national application are set forth under 37 C.F.R. § 1.141, 1.475, and 1.499. Applicants are reminded that if multiple products, processes of manufacture, or uses are claimed, the first invention of the category first mentioned in the claims of the application and the first recited invention of each of the other categories related thereto, will be considered as the main invention in the claims (refer to PCT Article 17(3)(a) and § 1.476(c)). The following groups have been identified in this application:

- a. Group I, claim(s) 1, 6-13, and 24, drawn to a method of preventing HIV infection by administering a vaccinia virus.
- b. Group II, claim(s) 42 and 43, drawn to a method of making a vaccinia composition.

Groups I and II do not share a special technical because they are directed toward different scientific objectives that employ different protocols and reagents. Separate searches will clearly be required for each group.

Application No.: 10/566,586
Applicants: Weinstein, R., et al.

Docket No.: GMU-0001
Filing Date: 08/23/2007

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Applicant is also advised that the claims should be amended, where necessary, to reflect the restriction requirement and election.

37 C.F.R. § 1.48(b)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
